

Examples of some appropriate papers for Journal Club summaries:

“Direct Visualization of Evanescent Optical Waves,” D. A. Papathanassoglou and B. Vohnsen, *Am. J. Phys* **71**, 670-677 (2003).

“Surface Phonons and Other Localized Excitations,” P. B. Allen, S. Aubin, and R. B. Doak, *Am. J. Phys.* **68**, 228-231 (2000).

“Bound States of a Finite Periodic Potential Well,” D. W. L. Sprung, J. D. Sigetech, H. Wu, and J. Martorell, *Am. J. Phys.* **68**, 715-722 (2000).

“Coupled Oscillators: A Laboratory Experiment,” G. Hansen et al., *Am J. Phys.* **64**, 656-660 (1996).

“The density of states in quasiperiodic photonic crystals,” Y. Wang, B. Cheng and d. Zhang, *J. Phys.: Condens. Matter* **15**, 7675-7680 (2003).
